

YOUR BUSINESS. AUTOMATED. BUILT AROUND YOU.

We design, build and run bespoke AI automation that replaces manual, repetitive work — so your people can focus on what actually matters.

We don't sell off-the-shelf software. We work with you to understand exactly how your business operates, identify where time is being lost to manual processes, and build AI-powered automation that fits your systems, your rules, and your team — then we run it for you on an ongoing basis.

WHAT WE AUTOMATE

Data Extraction & Reporting

Pull data from your existing systems — SAP, Shopify, spreadsheets — and produce finished reports automatically, ready for sign-off.

Compliance & Regulatory Filing

Automate complex, rule-based submissions — packaging tax, EPR obligations, financial reporting — with full audit trails.

Workflow & Approval Processes

Replace repetitive manual steps with intelligent workflows that route, classify and escalate — with humans only involved where judgement is needed.

Content & Data Screening

Score, classify and filter large volumes of content or data against your rules — from partner applications to product catalogues.

System Integration

Connect platforms that don't talk to each other — syncing data, eliminating duplication and removing manual reconciliation.

Scheduled Intelligence

Deliver AI-generated insights, summaries and strategic narratives to your team automatically — weekly, monthly, or on demand.

100% SUCCESS GUARANTEE — IF WE DON'T DELIVER, YOU DON'T PAY.

No upfront fee · No risk · Just results you can count on.

REAL EXAMPLES

Packaging Waste Automation

SAP data extracted, tax rules applied, finished Excel submission produced automatically every month — ready for CEO sign-off.

Affiliate Partner Screening

AI scores hundreds of social media applicants against brand-fit criteria, flagging only borderline cases for human review.

Weekly Trading Reports

Data from SAP, Shopify and GA4 combined into a branded PowerPoint deck with AI narrative — delivered to SharePoint automatically every week.

OUR COMMERCIAL MODEL

No Upfront Fee

Subscription Model

Simple monthly fee covering operation, maintenance and minor

Performance-Based

We build at our risk. You pay nothing until the automation is delivered and accepted.

adjustments. Minimum 36-month term.

If we don't deliver the agreed functionality, no charge becomes payable. Our success is tied to yours.
